Mr. Andrew Smith  
Quality Assurance Manager  
Western Environmental Testing Laboratory  
475 E Greg Street, #119  
Sparks, Nevada 89431

Subject: Laboratory Audit

Dear Mr. Smith:

Quality Assurance staff from the Quality Assurance and Data Management Branch, Bureau of Reclamation, Mid-Pacific Region (Reclamation) recently completed a performance and system audit of Western Environmental Testing Laboratory (WET). After conducting these audits and reviewing WET's response to them, the audit team is confident in WET's ability to analyze water samples for inorganic and microbiological parameters in support of Reclamation programs. As a result, WET will remain on Reclamation's master list of approved laboratories. Please send a current fee schedule/price list to Reclamation's Mid-Pacific Regional Office in Sacramento, California.

The Reclamation audit team wishes to thank you and your staff for their time and assistance during these audits. If you have any questions, please feel free to contact me at 916-978-5285 or [vstokmanis@usbr.gov](mailto:vstokmanis@usbr.gov).

Sincerely,

Victor Stokmanis  
Quality Assurance Specialist
