Subject: Laboratory Audit

Dear Mr. Smith:

Quality Assurance staff from the Quality Assurance and Data Management Branch, Bureau of Reclamation, Mid-Pacific Region recently completed a performance and system audit of Western Environmental Testing Laboratory (WET). After conducting these audits and reviewing WET's response to them, the audit team is confident in WET's ability to analyze water samples for inorganic parameters in support of Reclamation programs.

WET will remain on Reclamation's master list of approved laboratories. Please send a current fee schedule/price list to the above address, Attention MP-156, Victor Stokmanis.

The Reclamation audit team wishes to thank you and your staff for their time and assistance during the audit process. If you have any questions, please contact me at (916) 978-5285 or vstokmanis@usbr.gov.

Sincerely,

Victor Stokmanis
Quality Assurance Specialist
